Local Clinical Skills Competition
“Professional Development” Category

The Student National Pharmaceutical Association (SNPhA) Clinical Skills Competition Program is an educational opportunity for SNPhA members to display their pharmaceutical knowledge and patient assessment skills through case presentations and patient counseling. It is conducted by the National Office at both Regional Conferences and the National Convention. Local Clinical Skills Competitions (CSCs) are planned, organized, and conducted by SNPhA chapters to provide their members with an opportunity to demonstrate their pharmaceutical skills and prepare for the National CSC.

Both the Regional and National CSCs and their prizes have been funded by our long-time sponsor, **The Kroger Co!** The competition is completed by teams of two pharmacy students. All participants will receive their standardized patient’s prescription information at the beginning of the competition start time and will be required to counsel the patient on appropriate information and use of the medications. Teams have five minutes to review the information and five minutes to counsel. The standardized patient may display personality characteristics or other barriers to challenge the participants’ ability to convey pertinent therapy information.
